

BRUSH CUTTER

FEATURES:

Closed End Deck

Open End Deck

- Built for skid steers this heavy duty brush cutter is built to last.
- Available in two body styles to meet your needs.
- The Closed End Deck is ideal for mulching material into finer pieces while the material is contained inside the deck housing.
- The Open End Deck works well in colder regions when frozen ground causes brush to bend at the ground line this mower will get in and really cut
- Can cut material up to 4" diameter with its four .63" thick AR 400 steel cutting knives.
- Comes with two motor options, standard flow 20 to 30 GPM and high flow 25 to 33 GPM.
- Hydraulic motor and gear drive provide excellent power and performance.
- Mower is equipped with a relief / anti cavitation valve for machines with pressure greater then 3200psi
- Skid steer must have a minimum lift of 2500 lbs.
- Available with front chain guard and tree bumper bar
- Heavy Duty construction and a durable black paint finish
