

EXTENSION PUSH BAR

FEATURES:

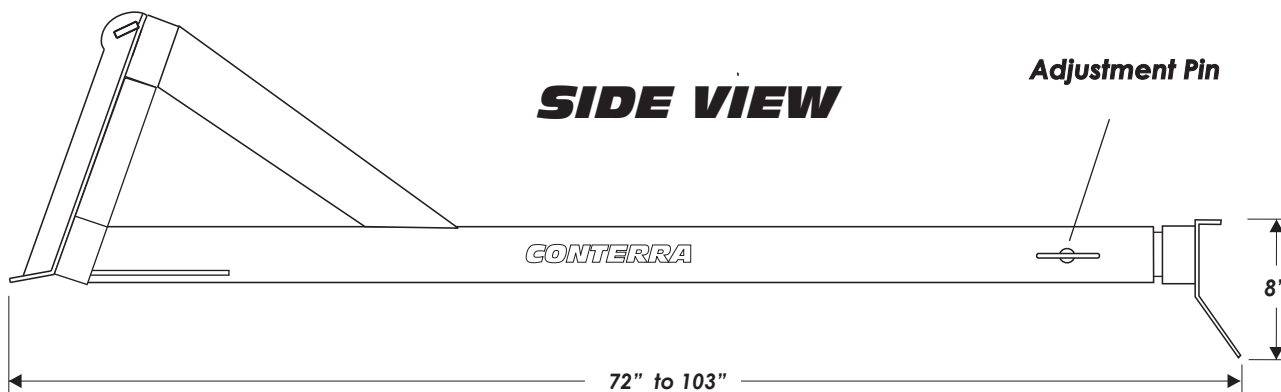

- The Push Bar connects easily to any skid steer
- An excellent solution for moving material into confined spaces like under decks etc.
- Unit can be adjusted to reach from 72" to 103"
- Sloped mount design allows for easy hook up to skid steer and excellent visibility.
- Blade is constructed using 3/8" plate and is 8" high and 36" wide. (Other blades sizes are also available)
- Heavy duty 4" x 4" outer tube and 3.5" x 3.5" inner tube
- Blade positioning is adjusted manually with a retainer pin
- Durable black paint finish

SPECIFICATIONS:

Model #	Retracted Length	Extended Length	Blade Height	Blade Width	Approx. Weight
EPB 72-103	72"	103"	8"	36"	250 lbs

* The above numbers reflect the weight of the implement. Please refer to your owners manual of your skid steer for lift capacities.

GRID LOCK
Manufacturing Technique

This product features our Grid Lock manufacturing technique that allows for increased strength with less overall weight.

All products are subject to change without notice or liability.
