

INDUSTRIAL TINE GRAPPLE FORK

FEATURES:

- Built for skid steers and loaders with the universal mount
- The Industrial Tine Grapple is a hi-strength steel grapple that is perfect for handling broken concrete, logs, and agricultural waste
- The unique design allows the operator to handle odd-shaped materials with ease
- The lower grapple tines are replaceable
- Grapples self adjust to uneven loads, with the use of its dual 3,000 pound rams and keep the load secure
- Grapple tines are laser cut from heavy duty 1/2" steel plate grapples
- Easily moves difficult material that single-ram grapples cannot handle
- Grapple has a maximum opening of 40.1"
- Heavy duty construction
- Durable charcoal paint finish

Replaceable lower tines
