

LANDSCAPE RAKE

FEATURES:

- Mounts easily to skid steers with universal mount
- Designed to remove small to medium sized rocks as small as 3/4"
- Excellent for seed bed preparation, breaks up lumpy soil, while grading, leveling and scarifying
- Removes unwanted roots and debris
- 3-point adjustable skid shoes control depth and leaves a marker providing guidance on next pass
- Top cover opens hydraulically for easier dumping
- Large containment bucket
- Rake Bar is built with high tensile strength steel
- Staggered teeth pick up the smallest debris
- Direct Drive Rotor gives higher production and lower maintenance
- Dual springs on cover allows for picking up large rocks
- Has a 5/8" x 6" base edge
- Teeth are constructed using 7 gauge steel

OPTIONS:

- Replacement Bolt-on Rake Bar

Rake Bar is built with high tensile strength steel. Teeth are staggered to pick up the smallest of debris

Hydraulic cylinder opens top cover for fast easy dumping of the large containment bucket.
