

LOG SPLITTER

New model not exactly as shown

FEATURES:

- Fits most late model skid steers
- Allows for fast and easy log splitting for logs up to 24" long
- Powered by 4" cylinder that produces up to 20 tons of force
- The cylinder has a 24" stroke and a maximum hydraulic pressure of 3000 psi
- The unit is operated by a single control lever with an automatic kick off valve that allows both hands to be free to handle split wood and set up new log while ram is retracting
- 30 second cycle time at full load
- Durable construction and black paint finish

This product features our Grid Lock manufacturing technique that allows for increased strength with less overall weight.

SPECIFICATIONS:

Part #	Model #	Frame Width	Frame Length	Ram Bore	Output Tons	Max Hyd. Pressure	Weight
104700	LS 20	48"	64"	5"	20	3000psi	254 lbs

* The above numbers reflect the capacity of the attachment, and may be in excess of the capacity of some skid steers. Please check your owners manual for specific capacities.
