

PALLET FORK - standard duty frame

YOUR LOGO

ORDER 10 or more units and Conterra will laser cut your company logo into the brick back mast for FREE!!

FEATURES:

- Built for skid steer and loaders with the universal mount
- The Pallet Fork - Standard Duty is an ideal attachment for any job that involves moving bulky bales, lumber, logs, or palletized materials
- The Pallet Fork - Standard Duty offers good strength at an affordable price
- Units are outfitted with a side step that makes getting in and out of the cab much more safe and easy
- Laser cut brick guard provides good visibility and added operator station protection
- Tines are 48" long and are rated at 3,700 pounds of lift capacity @ a 22" load center
- Tines are adjustable across the 46" wide frame and have spring loaded pins to accommodate varying loads widths
- Heavy duty construction
- Durable grey paint finish

SPECIFICATIONS:

Part #	Model #	Tine Length	Tine Capacity @ 22" load center	Weight
	PFSD 3700-48	48"	3700 lbs max	369 lbs

* The above numbers reflect the capacity of the attachment, and may be in excess of the lift capacity of some skid steers. Please check your owners manual for specific lift capacities.
