

ROTARY BRUSH MOWER

FEATURES:

- Built for skid steer and loaders with the universal mount the Rotary Brush Mower has been engineered for rugged durability, safety and easy operation
- The Rotary Brush Mower not only has the finesse to cut grass and weed but also the power to cut and mulch brush and trees up to 3" diameter
- Break new trails, clear ditches, construction, property sites, and other overgrown areas
- Available in 60" & 72" wide models
- Equipped with a heavy-duty gear box
- Swing Away Blades and Stump Jumper prevents damage when unit comes in contact with rocks and debris
- Mower deck is constructed from 1/4" plate and has a Stabilizer Bar that reduces deck flex when cutting heavy material
- Equipped with front chain guards for better mulching and increased safety
- Float~n~Tilt™ system allows mower to follow the contour of the ground
- Large 6" rear roller greatly reduces attachment jerking and insures easy operation
- Equipped with Safety-Shut-Off System™ that automatically shuts mower down when units is positioned in an unsafe manner
- Cuts moving forward or reverse
- Hydraulic motor with pressure relief is not only extremely quiet but also easy to maintain because it requires no shear pins or clutch drive
- Dual-edge cutting blades that can be reversed for longer life
- Operates in both forward and reverse
- Heavy duty construction
- Durable charcoal paint finish

Hydraulic motor features a **Pressure Relief Valve**, preventing unnecessary damage to the gear box, eliminating the need for unwanted shear pins. **Heavy-Duty Gear Box** is standard equipment.

Replacement blade package with blades, bolts, nuts and washers.

All products are subject to change without notice or liability.

F7

Unique automatic **Float~n~Tilt™** system

Unique automatic **Safety Shut-off**

Protective Cover for Hydraulic Motor

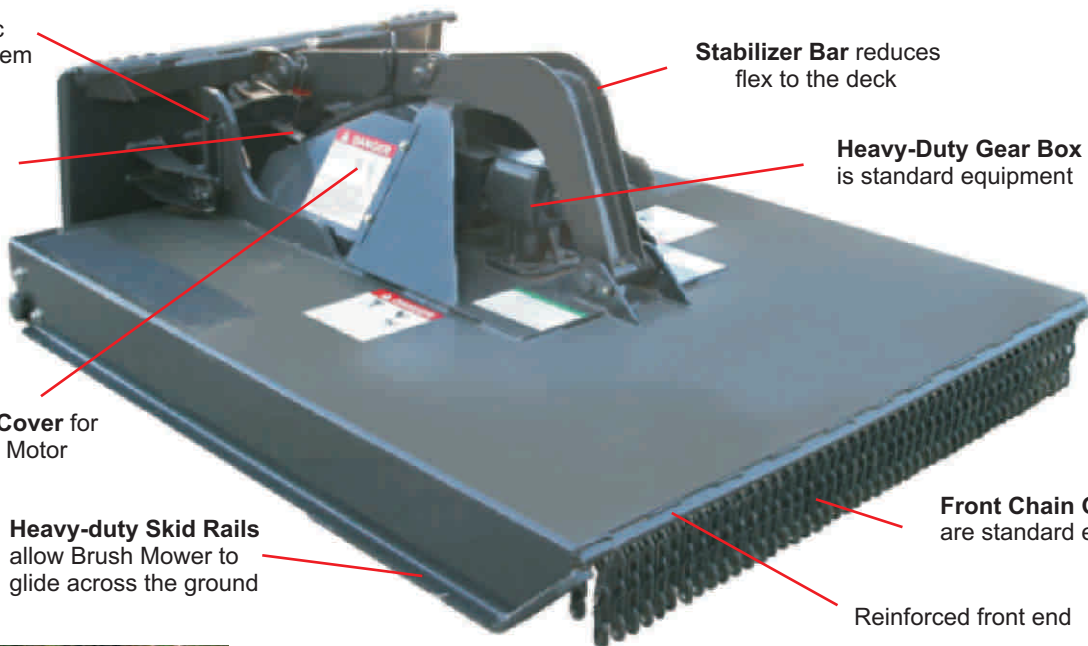

Heavy-duty Skid Rails allow Brush Mower to glide across the ground

Stabilizer Bar reduces flex to the deck

Heavy-Duty Gear Box is standard equipment

Front Chain Guards are standard equipment

Reinforced front end

Large 6" diameter rear roller with greasable bushing

Unique automatic **Float~n~Tilt™** feature allows for an even cut, following the contour of the land rather than the skid steer. This allows cutting on hillsides and uneven terrain.

Stump Jumper and **Swing Away Blade** features prevent unnecessary damage to the unit
