

TREE SHEAR

FEATURES:

- Built for skid steers and loaders with a universal mount
- The Tree Shear is ideal for clearing a wooded lot or selectively cutting unwanted trees or shrubs
- The Tree Shear also works great for trimming tree and shrubs
- Can cut trees up to 12" in diameter
- Cutting blade stance is set low for near ground cutting
- Unique hook arm prevents slipping and increases grip on branches
- Shear manually rotates 90° and can cut vertically and horizontally
- Shear Blades are fabricated from AR 400 high tensile steel
- Powered by a 5" hydraulic ram
- Push Bar Brush Guard keeps trees and brush away from operator station for added safety
- Heavy duty construction
- Durable charcoal paint finish

Fallen trees can be sectioned for easy removal or clipped to length for firewood or compact loading.

All products are subject to change without notice or liability.
