

TREE SPADE HYDRAULIC

FEATURES:

- Built for skid steers and loaders with the universal mount
- The Tree Spade can dig a tree and plant it without the operator ever having to leave the loader
- Fully truncated blades remove for easy sharpening
- Closed design side channels keeps out unwanted debris
- Swing frame accommodates evergreens and reduces damage to trees
- In-cab finger tip hydraulic controls makes this spade easy to operate
- Cutting spades overlap to insure clean cut and tree extraction
- Blade angles are at 25 degrees
- Cuts a 30" root ball 29" deep
- Tree Spade comes complete & ready to use, including all hydraulic couplers and controls
- Can transplant up to 2-1/2" Diameter hardwood and 3" Diameter evergreen trees
- Tree Spade cutting blades are laser cut from 3/8" steel plate
- Control valve stand is easily adjusted to fit any operator needs
- All bearings are outfitted with grease fittings
- Short frame design for increased down pressure and reduces the need for rear stabilizers
- Heavy duty construction
- Durable charcoal paint finish

Unique closed design slide channel keeps out unwanted debris

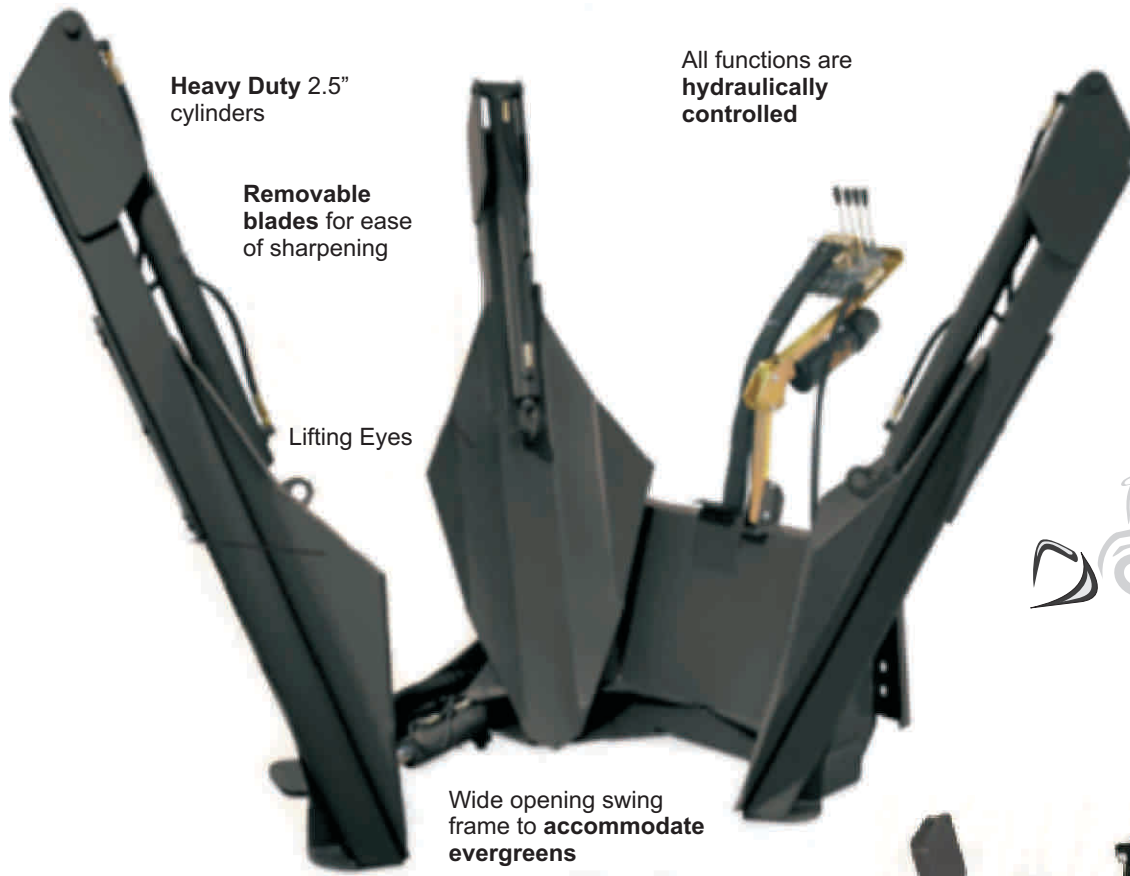

Cuts a 30" diameter root ball, 29" deep with fully truncated blades. Blade angles are at 25 degrees
