

WOOD CHIPPER

FEATURES:

- Built for skid steers and loaders with the universal mount
- This attachment is ideal for commercial, residential, orchards, golf courses, etc.,
- Any place you need to turn a pile of branches into a pile of chips
- Wood Chipper is easily placed into backyards and remote areas without creating damage to yards
- Dual skid steer mounts allow for operator & crew to position the feeder opening in two different direction to better accommodate operation of chipper
- Hydraulic feed control reduces crew fatigue
- Available in standard or high flow models
- Fast easy chute rotation
- Four reversible, dynamically balanced chipper blades
- Hinged disc cover for easy maintenance
- Built in hydraulic jack
- Adjustable feed rate for brush and limbs
- Heavy duty construction
- Durable charcoal paint finish

Four reversible chipper blades mounted on a dynamically balanced disc weigh in at 275 lbs. Maintenance and service is quick and easy with a hinged disc cover.

Hydraulic feeding system makes chipping much easier by crushing in the side of branches.

Hand crank controls the speed of the hydraulic feed system which determines the rate at which the operator feeds the material.

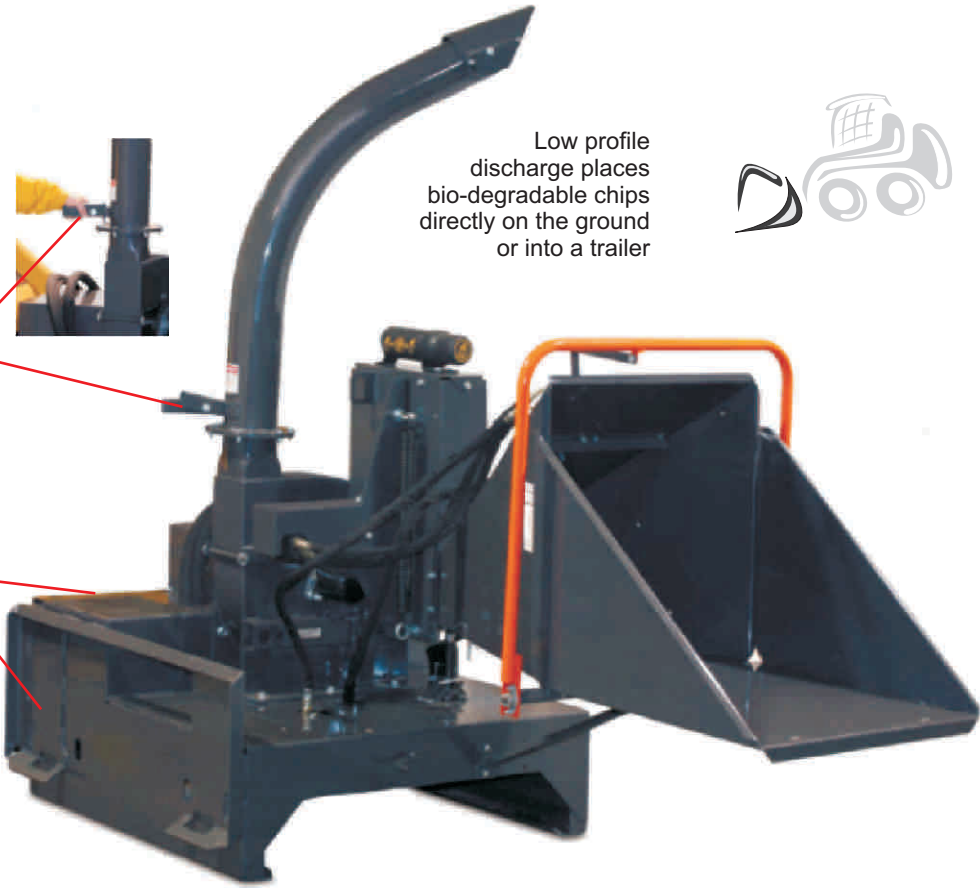

All products are subject to change without notice or liability.

F10

Low profile discharge places bio-degradable chips directly on the ground or into a trailer

Fast, easy chute rotation of 360°

Chipper has 2 mounts, so it can be set to feed in front or to the curb side.

Safety Shut Off Grab Bar controls the hydraulic feed roller.
