AB-Series Auger Bits

Our most popular auger, the AB-Series features a reinforced fabricated boring head and double-wrapped flighting. Each comes equipped with heat-treated teeth and ADI center point. An exceptional value, in many conditions, the AB-Series is comparable to our competitor's more expensive cast-head augers. AB-Series auger bits are approximately 50 inches (1.3 m) in overall length and can be ordered with standard heat-treated or carbide teeth and fishtail. Diameters range from 6 inches to 48 inches.
