

FLOATER BAR

FEATURES

- Is easily attached and removed using two bolts.
- The Floater Bar works in conjunction with you Top-Wind Jack depth control, and automatically adjusts to arena conditions, to knock off high spots and fill in low spots.
- Dramatically enhances floating and levelling.

For Use With: Conterra Arena Rake

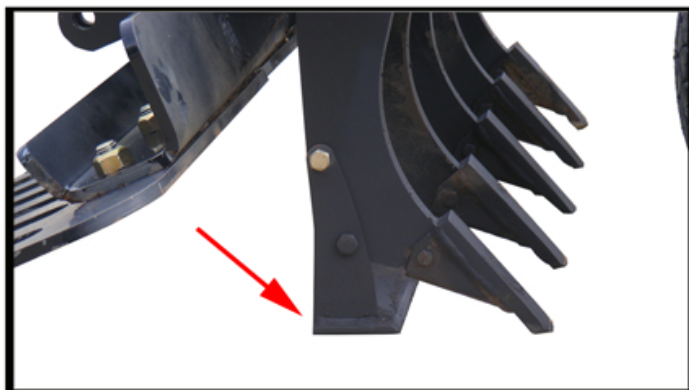

PROFILER BAR

FEATURES

- Bolts onto Scarifier Shanks and works in conjunction with the Scarifier Teeth.
- As the Scarifier Teeth open the ground for grooming, the Profiler Bar levels the ground behind the teeth leaving a supremely level subsurface.
- Easy to install.

For Use With: Conterra Arena Rake

RECLAIMER BAR

FEATURES

- Is easily attached and removed using four pins.
- Designed to pull material off your arena wall, allowing you to work it back into the arena surface, where it belongs.
- The Reclaimer Bar is easily adjusted using the Arena Comb / Roller Jack.

For Use With: Conterra Arena Rake & Conterra EquiGroomer-QDX

TRAILER HITCH

FEATURES

- The Trailer Ball Hitch is available in two sizes:
CAR-TH-B001 - 1-17/8" Trailer Ball Hitch
CAR-TH-B002 - 2" Trailer Ball Hitch
- Easy to install
- Use the same bolts as the Pin Hitch.

For Use With: Conterra Arena Dragster, Conterra Arena Rake, and Conterra EquiGroomer.
