

## Features:

- Designed for quads and side-by-sides with at least 500cc
- Replaceable hardened steel skid shoes
- Available in 44" & 60" widths
- Easy to maintain and simple to operate
- Twin grader blades and an open back design are the keys to operating efficiency and performance
- Material accumulates between the twin cutting edges and helps to keep the grader in constant contact with the ground
- The open back design allows material to constantly process out the back of the grader to level with ease and uniformity
